

Sky Enterprise Zero Touch Provisioning 日本語操作ガイド

2019年 1月

ジュニパーネットワークス株式会社

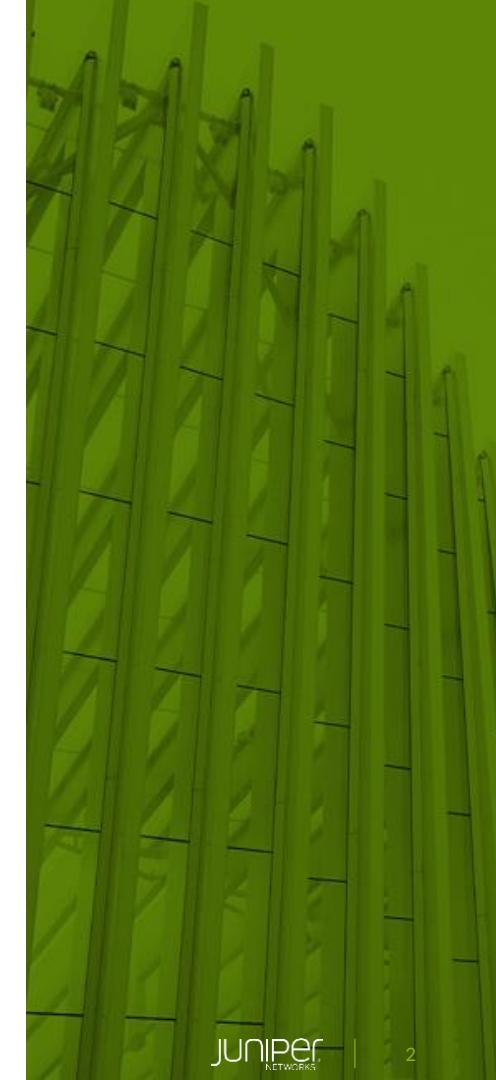

はじめに

- ◆ 本資料では、Zero Touch Provisioning(ZTP)実行時の
ポータル操作について、SRX300 を例に説明します。

※対応プラットフォーム

SRX300, SRX320, SRX340, SRX345, SRX550M, SRX1500

Junos OS 15.1X49-D110 以降

Sky Enterprise ZTP 概要

設定投入までの流れ

① 事前登録

テンプレートの作成、デバイスの登録

② 機器の設置

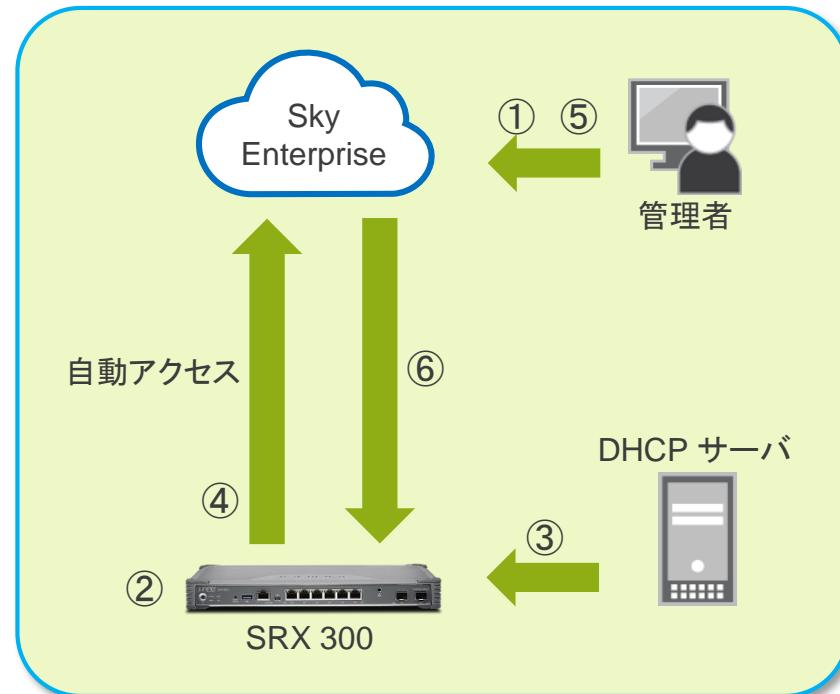

③ DHCP でアドレス取得

④ インターネット接続

⑤ デバイスの承認

⑥ 設定投入

※ 本資料では①、⑤について説明

① 事前登録

ZTP テンプレートの作成

必要に応じて新しいテンプレートを作成

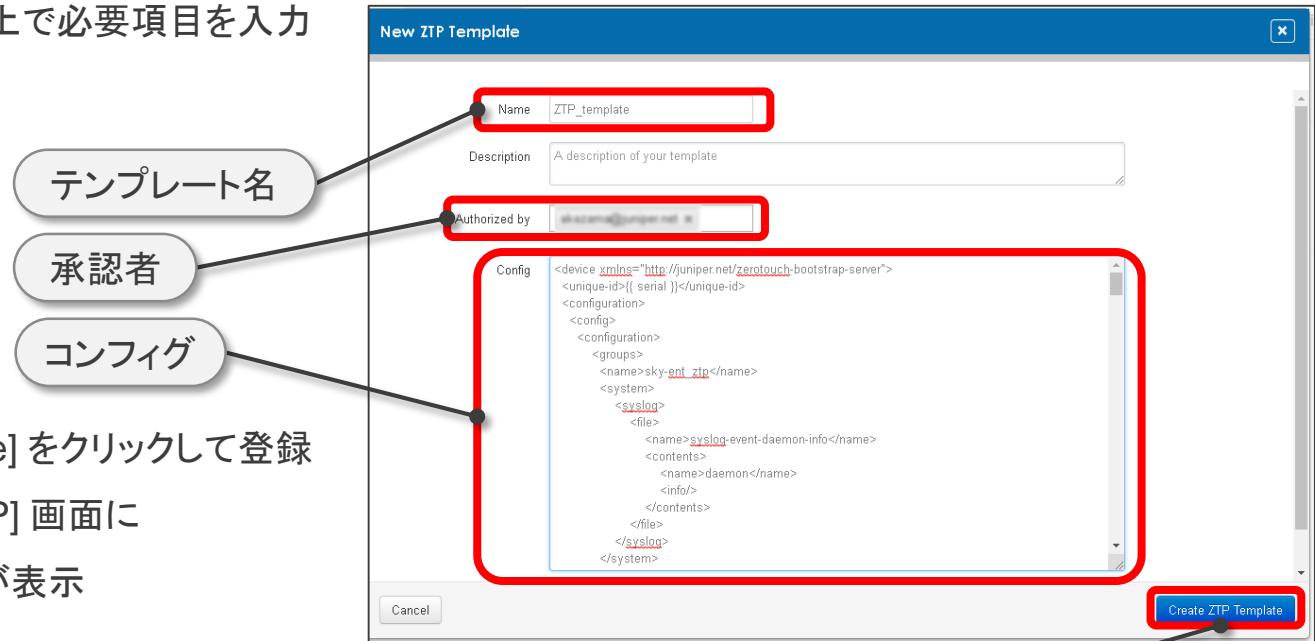

1. [Configuration] > [ZTP] - [Add ZTP Template] をクリック

The screenshot shows the Juniper Networks web interface. At the top, there is a navigation bar with tabs: Devices, Users, Configuration (which is highlighted with a red box), Settings, and Support. To the right of the tabs, it says "Juniper_Demo". Below the navigation bar, there are several sub-navigation links: Bulk Updates, Software Distribution, Software Library, ZTP (which is highlighted with a red box), and Security Policy Templates. The main content area has two sections: "ZTP Devices" and "ZTP Templates". Under "ZTP Devices", it says "ZTP Devices requires a ZTP Template, please create one first." Under "ZTP Templates", it says "No ZTP Templates found." In the top right corner of the main content area, there is a button labeled "+ Add ZTP Template". A red box highlights this button, and a green callout bubble below it also points to it, with the text "Add ZTP Template".

① 事前登録

ZTP テンプレートの作成

2. テンプレート作成画面上で必要項目を入力

3. [Create ZTP Template] をクリックして登録
4. [Configuration] > [ZTP] 画面に

作成したテンプレートが表示

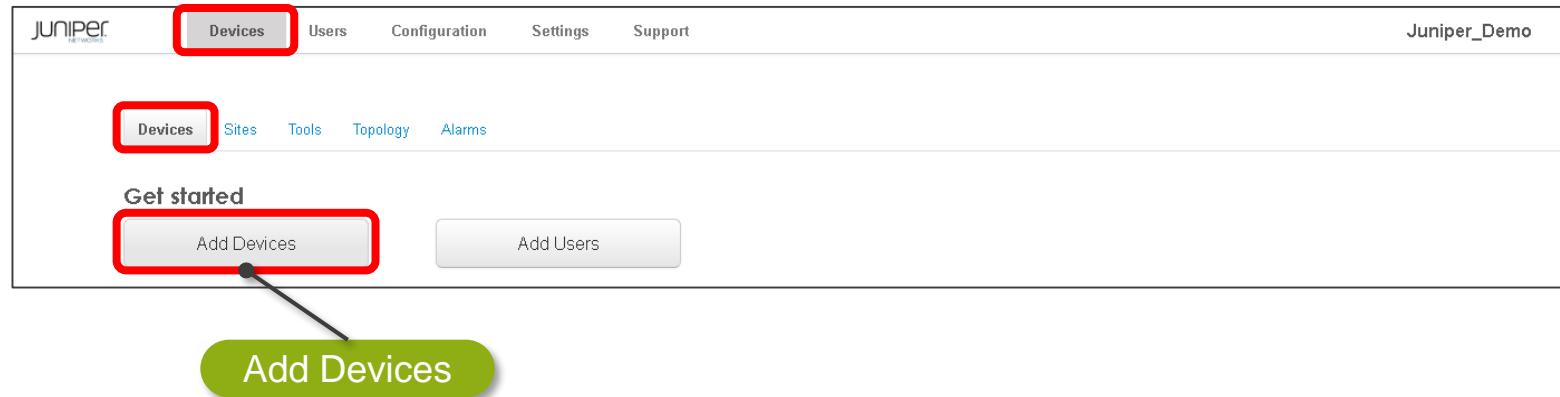

* P.4 の操作画面参照

① 事前登録

ZTP デバイスの登録

対象デバイスを追加

1. [Devices] > [Devices] - [Add Devices] をクリック

① 事前登録

ZTP デバイスの登録

2. デバイス追加画面上で必要項目を入力

The screenshot shows the 'Add Device' dialog box. The fields are as follows:

- Name: SRX_300
- Category: firewall
- Description (optional): (empty)
- Create ZTP Device?:
- Device Serial: CV0000AF1111
- ZTP Template: ZTP_template
- Variables:
 - hostname: TOC_device
 - srx_lan_ip: 192.168.1.1
 - lan_net_masklen: 24

At the bottom, a message states: "ZTP requires devices with the following minimum versions:" followed by a bulleted list: "SRX firewall: 15.1X49-D110 or above", "NFX : 15.1X53-D47 or above", and "EX Switch: 18.2 or above".

Create Device

3. [Create Device] をクリックして登録

① 事前登録

ZTP デバイスの登録

4. デバイスが登録されたことを確認

[Configuration] > [ZTP] をクリックして登録デバイスを確認

(Authorization: required, pending device connection)

The screenshot shows the Juniper Network Configuration interface. The top navigation bar includes links for Juniper, Devices, Users, Configuration (which is highlighted with a red box), Settings, and Support. On the far right, it shows 'Juniper_Demo' and a dropdown arrow. Below the navigation, there are tabs for Bulk Updates, Software Distribution, Software Library, ZTP (which is highlighted with a red box), and Security Policy Templates. A search bar at the top right contains '+ Add ZTP Device', a help icon, and a 'Search' input field. The main content area is titled 'ZTP Devices'. It has a table with columns: Action, Name, ZTP Template, Serial, Authorization, and State. A single row is listed: 'SRX-300-juniper_demo-CV0000AF1111' (Name), 'ZTP_template' (ZTP Template), 'CV0000AF1111' (Serial), 'required, pending device connection' (Authorization), and 'start' (State). The entire row is highlighted with a red box.

Action	Name	ZTP Template	Serial	Authorization	State
≡ ▾	SRX-300-juniper_demo-CV0000AF1111	ZTP_template	CV0000AF1111	required, pending device connection	start

⑤ 管理者の承認実行

ZTP デバイスの承認

デバイスが Sky Enterprise に参加することを承認

1. ZTP デバイスより接続要求が行われたことを確認

[Configuration] > [ZTP] をクリックして Authorization が required に変わったことを確認

The screenshot shows the Juniper Network Management interface. The top navigation bar includes links for JUNIPER, Devices, Users, Configuration (which is selected), Settings, and Support. On the right, it shows the session name "Juniper_Demo". Below the navigation, there are tabs for Bulk Updates, Software Distribution, Software Library, ZTP (which is selected and highlighted in grey), and Security Policy Templates. A search bar with a "Search" button is located at the top right. The main content area is titled "ZTP Devices". It displays a table with columns: Action, Name, ZTP Template, Serial, Authorization, and State. One row is visible, corresponding to the device "SRX_300-juniper_demo-CV3316AF1142". The "Authorization" column for this device has a red box drawn around its value, which is "required". At the bottom left of the table, there are buttons for "Authorize" (highlighted in blue) and "Show Device Configuration".

⑤ 管理者の承認実行

ZTP デバイスの承認

2. [Action] タブより [Authorize] を選択してクリック

The screenshot shows the Juniper Networks web interface for managing ZTP devices. The top navigation bar includes links for Devices, Users, Configuration (which is selected and highlighted with a red box), Settings, and Support. The user is logged in as 'Juniper_Demo'. Below the navigation, there are tabs for Bulk Updates, Software Distribution, Software Library, ZTP (selected and highlighted with a red box), and Security Policy Templates. The main content area is titled 'ZTP Devices' and lists a single device: 'SRX_300-juniper_demo-CV0000AF1111'. The device details include its ZTP Template ('ZTP_template'), Serial number ('CV0000AF1111'), Authorization status ('required'), and State ('entitled'). A 'Search' bar is also present. On the left side of the device row, there is a dropdown menu with options: 'Action' (highlighted with a red box), 'Name' (disabled), 'Show Device Configuration', 'Edit', 'Delete', and 'Clear ZTP State'. The 'Action' option is expanded, showing the 'Authorize' button, which is highlighted with a blue rectangle.

3. Authorization が「承認者、日付」の表示に変更

⑤ 管理者の承認実行

ZTP デバイスの承認

3. デバイスが管理可能となったことを確認

[Devices] > [Devices] をクリックして Status が Online になっていることを確認

The screenshot shows the Juniper Network Manager web interface. At the top, there is a navigation bar with tabs: Juniper Networks, Devices (which is highlighted with a red box), Users, Configuration, Settings, and Support. On the right side of the header, it says "Juniper_Demo" and has a dropdown arrow. Below the header, there is a secondary navigation bar with tabs: Devices (highlighted with a red box), Sites, Tools, Topology, and Alarms. In the main content area, there is a table with columns: Action, Host/(hostname), Model, Description/IP address, and Status. A search bar is located above the table. The table contains one row for "SRX_300 (TOC_device)" with model "srx300" and status "Online" (highlighted with a green button and a red box). There are also buttons for "+ Add Device", "Display Options ▾", "Download", "+ Set Tags", and a "Search" field.

Appendix : ZTP テンプレート

ZTP テンプレート例

- ✓ テンプレートは XML 形式で記述します
- ✓ Sky Enterprise で管理可能とする設定を含む必要があります
- ✓ 機器固有のパラメータは変数を用いることで、デバイス登録時に設定が可能です
(本例ではホスト名と LAN IP)

```
<device xmlns="http://juniper.net/zerotouch-bootstrap-server">
<unique-id>{{ serial }}</unique-id>
<configuration>
<config>
<configuration operation="merge">
<system>
<autoinstallation delete="delete"/>
<host-name>{{ hostname }}</host-name>
ホスト名
<root-authentication>
<encrypted-password>$6$vhTDT$bOpl9bBq5MKKWC1jY7siczd4fEMf4/xjUy.JvqXE9ZOsl.E5xdwquwEAVkKW.Xap101hBhKqcOwAsch/g8pzl1</encrypted-password>
</root-authentication>
<name-server>
<name>8.8.8.8</name>
</name-server>
<name-server>
<name>8.8.4.4</name>
</name-server>
```

Appendix : ZTP テンプレート

ZTP テンプレート例(Sky Enterprise との接続設定)

```
<login>
  <user>
    <name>{{ ztp_username }}</name>
